

PUBLICATION FEES – COVERING COSTS FOR SCIENTIFIC PUBLICATIONS (WEBINAR)

OPEN ACCESS WEEK 2018

25 OCTOBER 2018 | MARTIN WINTERMEIER

OPEN ACCESS

*“**Open Access** describes the goal of making global knowledge **accessible** and **re-usable** in digital form without financial, technical or legal barriers.”*

Alliance of Science Organisations in Germany

MODELS OF PUBLICATION - OVERVIEW

Open Access Journals	Gold Open Access	• Publisher's version immediately available without restrictions on publisher's website • Possibly Article Processing Charge • No additional charge • Author retains the copyright
Subscription Journals	Green Open Access	• Post-Print immediately or after embargo available without restrictions in repository • Possibly publication fees • No additional charge • Author transfers the copyright, Permissions
	Hybrid Open Access	• Publisher's version immediately available without restrictions on publisher's website • Possibly publication fees • Additional charge • Author might transfer the copyright
	Closed Access	• Publisher's version immediately available for subscribers on publisher's website • Possibly publication fees • No additional charge • Author transfers the copyright, Permissions

RESEARCH FOR GRAND CHALLENGES

FORSCHUNGSZENTRUM JÜLICH

Directive No. 5/2017

Publications by Forschungszentrum Jülich GmbH¹

4. Records and holdings maintenance at Forschungszentrum Jülich

- 4.1 Once the publication has been accepted by a publishing organ (publishing house, company, or the like), the publication is entered into the publications database by the author or the organizational unit and, in accordance with the Berlin Declaration², the publication is made available in the institutional document repository (open access section of the publications database) of Forschungszentrum Jülich. The author saves the publication in electronic form (PDF) in the publications database. The version “Final Draft Post Referee” as well as the publishing house layout version “Verlags-PDF” are both required. The Central Library (ZB) clarifies secondary-use copyright issues and uploads the publication into Forschungszentrum Jülich’s repository accordingly.

FORSCHUNGSZENTRUM JÜLICH – JUSER

- Every publication must be entered in **JuSER**
 - Metadata (POF and grant no.)
 - **Open-access journals:**
Upload of **publisher's version** (*Main document*)

JuSER
workflow

FORSCHUNGSZENTRUM JÜLICH – JUSER

- Every publication must be entered in **JuSER**
 - Metadata (POF and grant no.)
 - **Subscription journals:**
Upload of **post-print version** (*Main document*)
and the **publisher's version** (*Restricted*)

The screenshot shows a web interface for uploading documents. A yellow box contains instructions: "Please upload your full text" with an "Add new file" button, and "Please note that the following rules apply" with links to "Veröffentlichungsrichtlinien der Forschungszentrum Jülich" and "Regeln zur Sicherung guter wissenschaftlicher Praxis". Below this, it says "Use only the following forms in the publication process" with a list: "1. Genehmigung von Veröffentlichungen / Approbation" and "2. Zusatzblatt für Veröffentlichungen im Verlag". A green "Finish & Release" button is at the bottom. A "Choose a file:" dropdown menu is open, showing options: "Main document" (selected), "Main document LaTeX", "Source", "Additional File", "Audio file", "Video file", "Script", "Data", "Figure", "Schema", "Graph", "Image", "Drawing", "Slides", "Authors fulltext", and "Restricted fulltext". The "Authors fulltext" option is highlighted in blue. The background of the dropdown menu is white, and the text is black. The "Main document" option has a small blue arrow next to it. The "Authors fulltext" and "Restricted fulltext" options are at the bottom of the list. The "Main document" option is at the top of the list. The "Main document LaTeX" option is below "Main document". The "Source" option is below "Main document LaTeX". The "Additional File" option is below "Source". The "Audio file" option is below "Additional File". The "Video file" option is below "Audio file". The "Script" option is below "Video file". The "Data" option is below "Script". The "Figure" option is below "Data". The "Schema" option is below "Figure". The "Graph" option is below "Schema". The "Image" option is below "Graph". The "Drawing" option is below "Image". The "Slides" option is below "Drawing". The "Authors fulltext" option is below "Slides". The "Restricted fulltext" option is below "Authors fulltext".

OPEN ACCESS STRATEGY

Publication Charges – Payment from the Publication Fund

On 24 November 2015, the Board of Directors decided upon a new Open Access Strategy for Forschungszentrum Jülich. According to this strategy, preference is given to gold-open-access publications published in original open-access journals. From 1 January 2016, if an employee of Forschungszentrum Jülich is a corresponding author, the publication charges will be paid for from the publication fund, which is administered by the Central Library (ZB). Exceptions are possible if the costs are not charged to the publication fund. Forschungszentrum Jülich's publication fund does not cover fees incurred by the publication of articles in predatory journals.

PUBLICATION FEES IN JUSER

Launch:
September 2016

Goals:

- Workflow optimization
- No more doubling of data
- Transparency of publication fees

Changes:

- Partly changes to workflow: library enters publications, if necessary
- Email alert to author/institute
