

AT YOUR SERVICE

PUBLICATION AND OPEN ACCESS SERVICES OFFERED BY THE CENTRAL LIBRARY

2023 | LINDA MCGRATH

AGENDA

- ▶ **Open Access Policy of the FZJ**
- ▶ **Publications and invoicing process**
- ▶ **Plagiarism check using iThenticate**
- ▶ **Predatory journals and conferences and how to identify them**
- ▶ **Advice/current view on AI and LLMs in publications and in publisher policies**
- ▶ **Your publication in JuSER**

OPEN ACCESS POLICY OF THE FZJ

CONDITIONS TO RECEIVE FUNDING THROUGH ZB

Open Access Strategy of Forschungszentrum Jülich, effective as of January 1, 2023

Corresponding author from FZJ

The corresponding author must be from FZJ. If there are several corresponding authors, the costs should ideally be shared between the institutions involved.

Cap at € 3,000 / OA article or € 5,000 / OA monograph

Gold open access costs are covered by the Central Library (ZB) when the corresponding author is from Forschungszentrum Jülich.

Restricted funding of hybrid OA publications

Hybrid OA APCs are only covered by the publication fund when the publication appears in a journal that is part of a transformative agreement concluded by ZB.

Diamond open access

The publication of the scientific findings of Forschungszentrum Jülich using the diamond open access model is explicitly encouraged.

TOOLS

How to find an open access journal covered by FZJ

https://intranet.fz-juelich.de/en/organization/zb/expertise/open_access/oa-publication-charges-cooperation

- The intranet gives you an overview over all the publishers the FZJ has agreements with
- For several publishers, further links to find out what journals are supported OA journals are included

<https://doaj.org/>

- DOAJ is an independent database for open access journals from around the world
- In order to be listed, journals have to comply to quality standard
- The central library will fund APC for Gold OA journals listed in DOAJ with up to EUR 3,000

PUBLICATIONS AND INVOICING PROCESS

SUBSCRIPTION JOURNALS

Closed Access

- Publisher's version immediately available for subscribers on publisher's website
- Possibly publication fees
- No additional charge
- Author transfers the copyright
- Permissions for re-use necessary

Hybrid Open Access

- Publisher's version immediately available without restrictions on publisher's website
- Possibly publication fees
- Additional charge
- Author might transfer the copyright

Green Open Access

- Post-Print immediately or after embargo available without restrictions in repository
- Possibly publication fees
- No additional charge
- Author transfers the copyright, Permissions

Only if part of existing agreement

OPEN ACCESS JOURNALS

If in DOAJ

Gold Open Access

- Publisher's version immediately available without restrictions on publisher's website
- Article Processing Charge
- No additional charge
- Author retains the copyright

Diamond Open Access

- Publisher's version immediately available without restrictions on publisher's website
- No Article Processing Charge
- No additional charge
- Author retains the copyright

INVOICING PROCESS

- Paying OA fees is different from publisher to publisher
 - Sometimes you will get an invoice, sometimes the fees will be directly managed by Central Library staff
- When asked to submit payment information:
 - Ask for an invoice – do not pay by credit card
 - Use your name as contact information
 - Use the address of the Forschungszentrum as billing address
 - The VAT registration number can be found on the Intranet at <https://intranet.fz-juelich.de/en/about-us/address-1>

If you have any questions, contact us at zb-copyright@fz-juelich.de or by phone

PLAGIARISM CHECK USING iThenticate

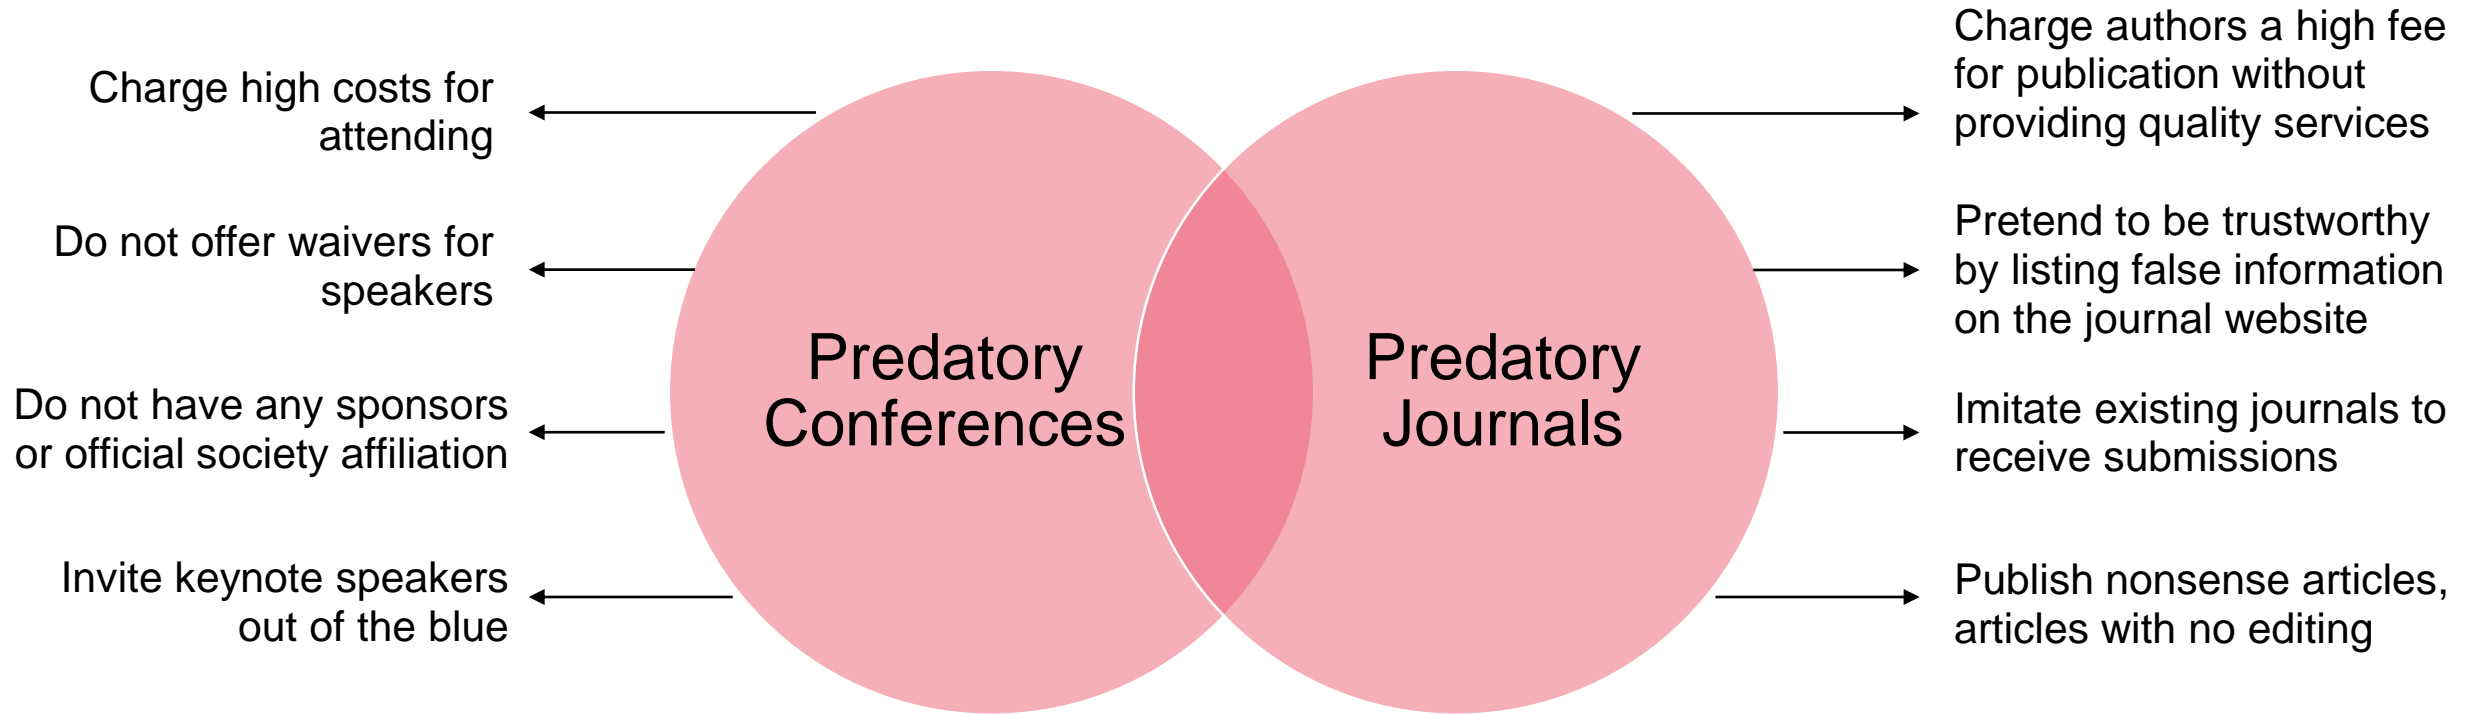

CHECK FOR PLAGIARISM

- iThenticate is a plagiarism detection service
- iThenticate is working on ChatGPT content detection
- We have a license that allows checking publications through the Central Library but does not allow for individual checks by individual researchers of the Forschungszentrum

ABOUT CONFERENCE

Xperts Meetings invites all the participants across the globe to attend “**International Conference on Catalysis and Chemical Engineering (Catalysis-2024 – Hybrid Edition)**” both on-site and virtually on **March 11-13, 2024**, in **Dubai, UAE** and **Virtually by Zoom**.

Catalysis-2024 will include several plenary talks, keynote lectures, interactive sessions, academic discussions, oral and poster presentations, technical workshops and social events that will provide huge networking opportunities for the participants to share their experiences and new innovations on all aspects of Catalysis, Chemical Engineering and Technology. The organizing committee will include leaders in the field of Catalysis, Chemical Engineering and Technology and will guide the participants on the latest developments and emerging challenges in these fields.

We hope that this conference will be personally rewarding to you

Target Audience for Conference:

Academic Experts in **Catalysis-2024**

Organizations in the **Catalysis-2024**

Industry Leaders, Government Leaders

Groups/ Associations

**EARLY BIRD
DEADLINE**

Oct 20, 2023

SUBMISSIONS

Oct 15, 2023

Dates

March 11-13, 2024

Venue

Dubai, UAE

PREDATORY JOURNALS

... and how to identify them

On the [intranet](#) you find a blacklist of predatory journals, a check list of how to identify them as well as additional information

Any journal listed on <https://doaj.org/> can be considered legit.

<https://thinkchecksubmit.org/> gives you advice on how to tell if a journal is trustworthy

ADVICE/CURRENT VIEW ON AI AND LLMS IN PUBLICATIONS AND IN PUBLISHER POLICIES

grammarly

AI Authorship

Large Language Models (LLMs), such as [ChatGPT](#), do not currently satisfy our [authorship criteria](#). Notably an attribution of authorship carries with it accountability for the work, which cannot be effectively applied to LLMs. Use of an LLM should be properly documented in the Methods section (and if a Methods section is not available, in a suitable alternative part) of the manuscript.

Generative AI Images

The fast moving area of generative AI image creation has resulted in novel legal copyright and research integrity issues. As publishers, we strictly follow existing copyright law and best practices regarding publication ethics. While legal issues relating to AI-generated images and videos remain broadly unresolved, Springer Nature journals are unable to permit its use for publication.

Exceptions are images/art obtained from agencies that we have contractual relationships with that have created images in a legally acceptable manner. Other exceptions to this policy include images and video that are directly referenced in a piece that is specifically about AI and will be reviewed on a case-by-case basis.

When a subject matter expert is invited to participate in the review process, the material/manuscript must be treated as confidential. Reviewers should not upload the material/manuscript or any part thereof into a generative AI tool as this may violate Elsevier's and/or the authors' confidentiality and proprietary rights and, where the material/manuscript contains personally identifiable information, may breach data privacy rights.

This confidentiality requirement extends to all communication about the material/manuscript including any reviewer questionnaires, reports, or correspondence, as these may contain confidential information about the material/manuscript, Elsevier and/or the authors. For this reason, reviewers should not upload their communications or any related material into an AI tool, even if it is just for the purpose of improving language and readability.

Elsevier abides by the highest standards of integrity in the review process which implies responsibilities that can only be attributed to humans. Generative AI or AI-assisted technologies should not be used by reviewers to assist in the review of the material/manuscript as the critical thinking and original assessment needed for review is outside of the scope of this technology and there is a risk that the technology will generate incorrect, incomplete or biased conclusions. The reviewer is responsible and accountable for the content of the review.

Elsevier's AI policy for book authors states that authors are allowed to use generative AI and AI-assisted technologies in the writing process before submission, but only to improve the language and readability of their work and with the appropriate disclosure, as per our instructions in Elsevier's Guide for Authors.

YOUR PUBLICATION IN JUSER

YOUR PUBLICATION IN JUSER

- Every publication published by a FZJ researcher needs to be entered in JUSER, our publications repository
- If you have any questions about how it works, please contact us at juser@fz-juelich.de
- Please enter DFG number!
