

Open Science for a Healthy Ocean

Open science is needed to effectively bring knowledge together to ensure a healthy ocean becomes reality

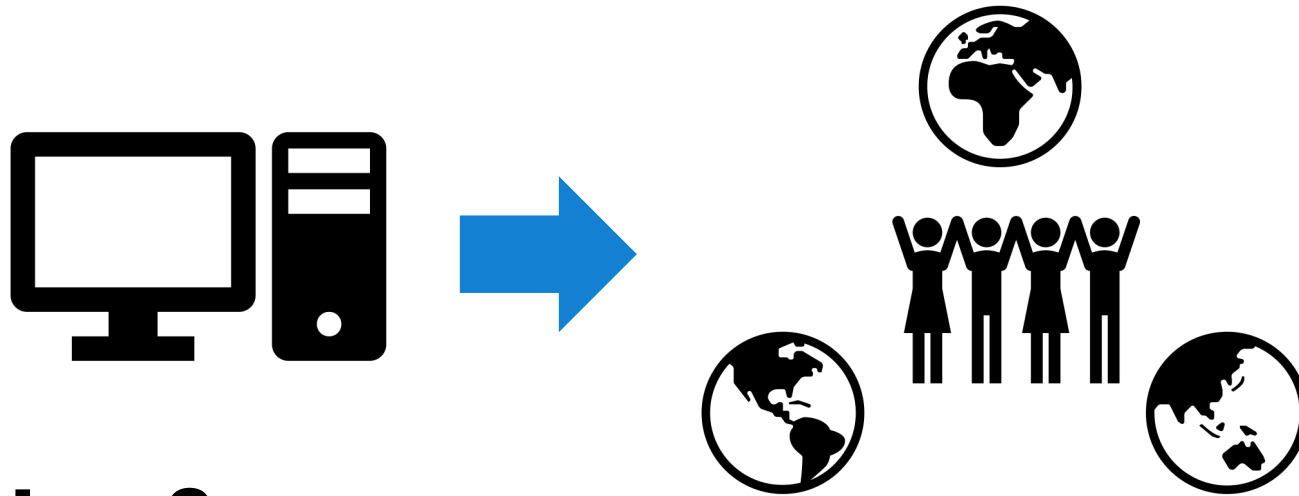

Joy A. Kumagai
Stanford University
kumagaij@stanford.edu

What is open science?

- "Open Science is **transparent** and **accessible** knowledge that is **shared** and developed through **collaborative networks**" [Vicente-Saez and Martinez-Fuentes 2018](#)
- Results in faster progress on collective problems

Science can be openly available online and benefit people around the world

1. Benefits others
2. Benefits science
3. Benefits yourself

How?
