

Women in HPC

Breaking Barriers and Shaping the Future

27.06.2024 | Anna Lührs

welcome

WOMEN IN HIGH PERFORMANCE COMPUTING (WHPC) BEGAN WITH A QUESTION - "WHY ARE THERE NOT MORE WOMEN IN HPC?"

This led to a mission to find the answer. On our journey we discovered that by bringing the HPC community together, we could provide research that would raise awareness, support to organisations and women based on what we learned, and opportunities for women to network, learn, and become strong!

Diversity creates stronger organizations and a stronger HPC community. Our goal - support for the HPC community and the women in the community to engage this generation of HPC users.

ABOUT US ▶

Women in HPC

Women in HPC (WHPC)

- Founded in 2013 at the EPCC (University of Edinburgh) as a “women’s lunch group”
- International conference events focused on early career and equity in HPC (at ISC in Germany at SC in the USA)
- Additional focus on travel and speaking opportunities for women in HPC

Jülich Women in HPC (JuWinHPC)

- Founded in 2022 as the first WHPC chapter in D
- Bottom up initiative, with full support from FZJ’s Board of Directors
