# MPDL White Paper (2015)

“This paper makes the strong, fact-based case for a **large-scale transformation of the current corpus of scientific subscription journals to an open access business model**. The existing journals, with their well-tested functionalities, should be retained and developed to meet the demands of 21st century research, while the underlying payment streams undergo a major restructuring.”

R. Schimmer, K. Geschuhn & A. Vogler (2015): Disrupting the subscription journals' business model for the necessary large-scale transformation to open access. <http://dx.doi.org/10.17617/1.3>
