JuSER

Juelich Shared Electronic Resources

10 June 2019 | Invenio User Group Workshop | Zoë Hester & Claudia Frick

Member of the Helmholtz Association

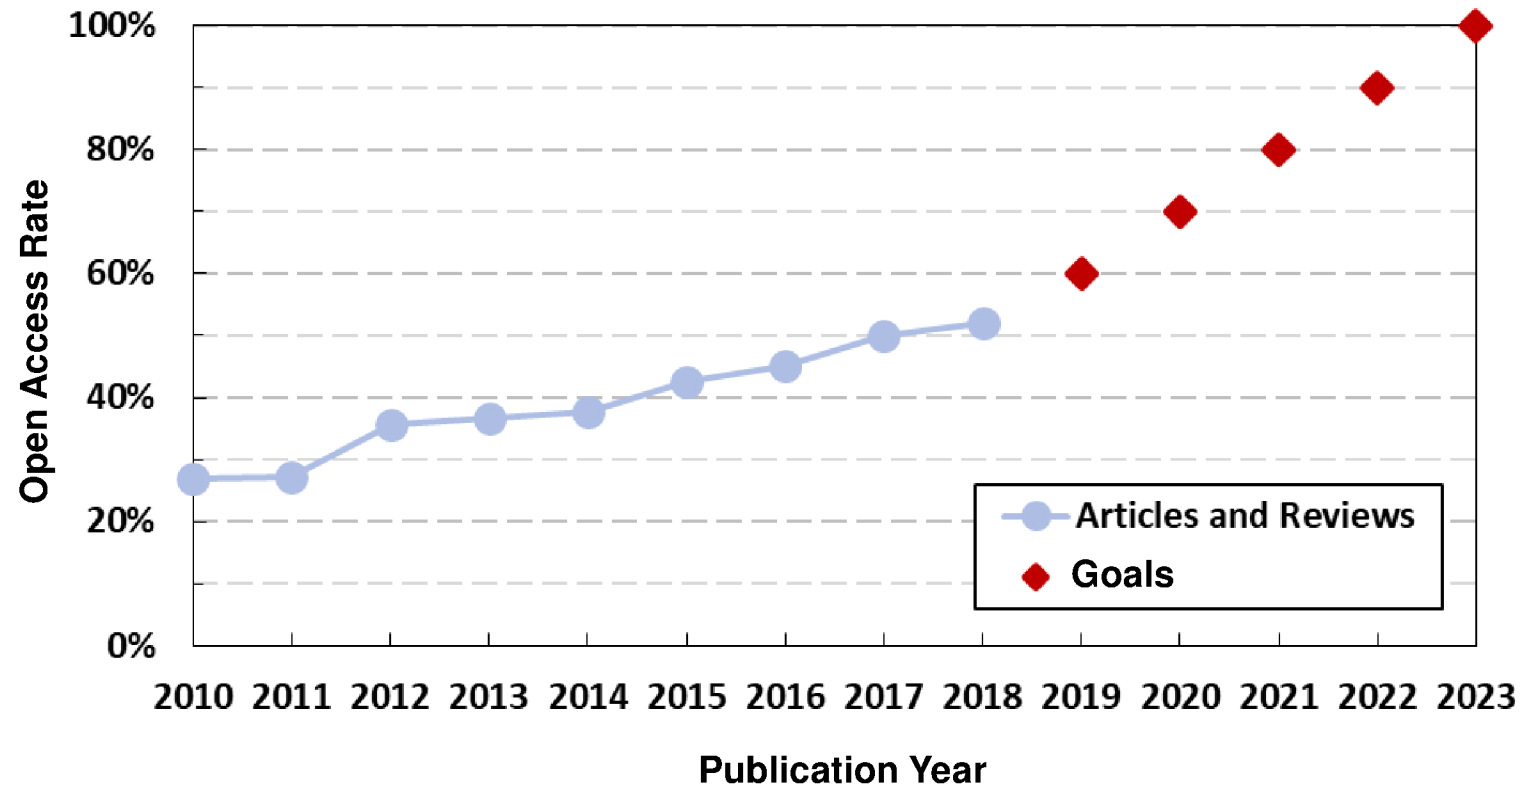

JuSER and JOIN²

- Publications database and institutional repository of Forschungszentrum Jülich
- Part of JOIN²
 - JOIN² = Just anOther INvenio INstance <http://join2.de/>
 - Several partners working together to create a shared infrastructure
 - Systems are currently based upon Invenio 1.1.7

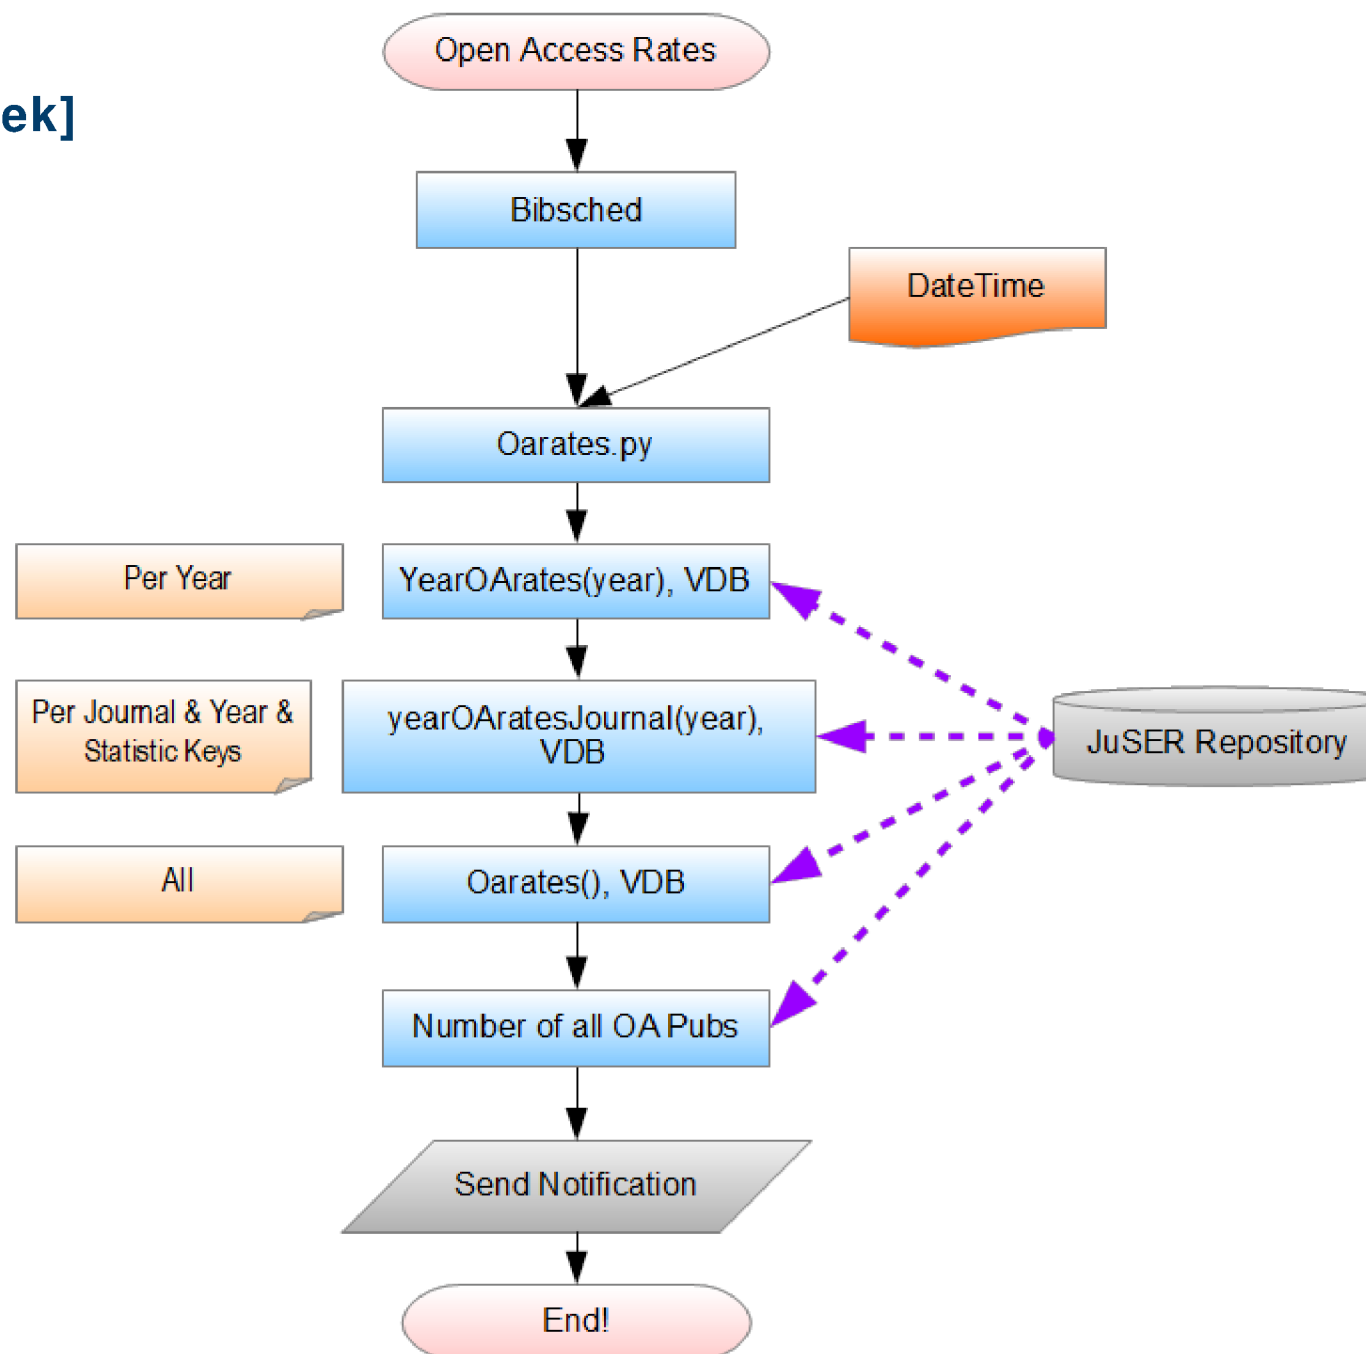

Open Access

- Goals of Helmholtz Association
 - 60% Open Access in 2019
 - 100% Open Access in 2023

- Journal articles and reviews listed in Clarivate Master Journal List or Scopus
- A maximum embargo of 12 month for Green Open Access

OArates_[1 week]

Publication charges – Idea and goal

- Overview over all costs related to publications and subscriptions
- In the past, we had database (PROCC) covering publication charges of all kinds
 - Data for one publication was maintained in two databases (PROCC & JuSER)
- In the present, we have a JOIN² module (JUSER)
 - Data for one publication is maintained in one databases (JuSER)

Publication charges – Frontend
