

Tropospheric Ozone Assessment Report (TOAR) Data Infrastructure

S. Schröder, E. Epp, L. Leufen, A. Mozaffari, M. Romberg, M. Schultz, J. Sun

Merging OpenAQ Air Quality Data in Real-Time

OpenAQ is the world's first open, real-time and historical air quality data platform:
Mainly government sources
Research-grade data

Collective impact through **community**:

- Data platforms
- Developer tools
- Education tools
- Low-cost sensors
- Media
- Models
- Research
- Software
